DETAILED ACTION

Applicant's election without traverse of group I, embodiment 2, figures 3A-3B, claims 1, 3-9 and 11-16 in the reply filed on 1/17/2006 and 9/23/2005 is acknowledged. [note, applicant made no argument regarding the restriction requirement between group I and group II].

This application is in condition for allowance except for the presence of claim 17-19 directed to invention of group II non-elected without traverse. Accordingly, claims 17-19 been cancelled.

Claims 1 and 9 are allowable. The restriction requirement of species, as set forth in the Office action mailed on 8/23/2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 2, 10 and 13, directed to other embodimentss no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
